

## MANAGER OF DIGITAL TECHNOLOGY (BIM)

**About EskewDumezRipple** We have deep roots and a broad perspective. Since 1989, we have worked, lived, and played in New Orleans, one of the most complex and culturally rich places in the United States. Our home serves as a constant inspiration for our work, reminding us what it means to connect deeply with a place while maintaining a global outlook. Our studio itself is a diverse group of people from all over the world, a resonant gathering of experiences and expertise. We are curious and determined. We nurture a culture that encourages a spirit of inquiry and attracts inquisitive people.

**About the Job** EskewDumezRipple is looking for a dedicated and enthusiastic Manager of Digital Technology responsible for maintaining and coordinating the firm's holistic use of BIM through the integration of Revit, VR, Rendering, and other 3D design applications. This position is not meant to create a BIM workflow for the studio, but to maintain and grow one that has already been established.

Since 2010, EskewDumezRipple has staffed the position of Manager of Digital Technology, as we believe keeping up with the latest changes in technology is a key to our continued success in the market. We are seeking qualified candidates intending to pursue a dedicated focus in continuing the influence of technology in our industry to achieve efficiency and continual improvement within a collaborative design process.

**Responsibilities** Maintains and updates firm practices, standards, and tools to optimize efficiency and accuracy of BIM production and digital design; including maintenance and updates of studio best practices, file management standards, project set-up and support.

Trains, coaches, and supports staff in Revit and related architectural software.

Works with project teams throughout design and documentation to ensure the use of best practices and assist in troubleshooting issues as they arise.

Coordinates research and recommendations related to emerging design technologies and digital design.

Coordinates with consultants to integrate their design/documentation methodologies with EDR's to facilitate consistent and reliable transfer of information.

Supervises firm IT consultant, coordinates IT system maintenance, software and hardware purchases, and updates to our server, network, software and hardware.

Develops and manages technology budget with Director of Finance.

**Qualifications** Minimum of a Bachelor's degree in architecture or related field.

Minimum 5 years of experience with digital design in architecture or a related field.

Demonstrable knowledge and proven background in Revit.

Additional knowledge of Enscape, AutoCAD, Rhino, Navisworks, Dynamo preferred.

Interest and experience in emerging digital design and computation technologies and related software applications and practices.

Must be highly effective at implementing software programs, techniques, and procedures and have a desire to work in an entrepreneurial, architectural environment.

Must be self-motivated, resourceful, and organized.

Strong interpersonal and communication skills (both written and verbal), and strong team-oriented people skills; must be able to articulate BIM concepts and practices to all levels of design team.

**Benefits** EskewDumezRipple offers a comprehensive benefits package including medical, dental, vision, 401K, short and long term disability, life insurance, competitive PTO, and parental leave. Our studio also hosts weekly happy hours and numerous employee events throughout the year.

To be considered for employment, please submit your resume along with work samples that reflect your relevant experience to [jobsedr@eskewdumezripple.com](mailto:jobsedr@eskewdumezripple.com).
